With everyone evacuating, the infected are going to be swarming the main roads.

We'll double back on Reed to make for the safe house.

We could take that same road east to the zone gate, bypass the other refugees. Maybe even find Tania.

Tania made her choice when she left us. She can stand or fall on her own.

She's still your daughter, Marcos.

2006-Mountain Valley.  
8 days since incident

No. MY daughter wouldn't have left her husband and child behind to save herself. You need to forget about her and focus on Moni, you understand?

Yes, sir.

We'll hole up in the safe house for a few days, wait until the smoke settles, and then make for the gate.

I don't like being here another minute! Why can't we leave now? If we go to the military...

That's enough, Vero. The military isn't here to help. They're here to keep the evacuation moving.

But...

Listen to me!

I told you I will always take care of you. I will get us out of here...and the safe house is the best way.

AAAIEEEE!

GRWAR!!!

Vero, get her away from there!

MA!  
Do something!

They're not supposed to be in here...

Vero...

You said you'd keep us safe. They're not supposed to be in here!

VERO, NOW!!

THEY'RE NOT SUPPOSED TO BE IN HERE!
